

Protect Inistioge's Peak

Dear Neighbour,

There is a wind farm development proposed for the peak of Mount Alto, featuring eight turbines, each standing 175 meters tall (575 feet).

The developer is hosting an online webinar on **9th December at 7pm** with the latest project updates. To register go to www.curraghmorerenewables.ie

A group of concerned residents have organised a community meeting to discuss the proposed wind farm and the webinar.

Everyone in the surrounding areas deserves to know how this development could impact our homes, families, community, and local environment.

If you'd like to learn more or share your thoughts, please join us at **Cois Abhann, Inistioge on Wednesday, 10th December at 8:15pm**. We warmly welcome all community members, along with friends and supporters, to attend.

Tea and biscuits will be provided, we really hope to see you there!
